

**DILUENTE INODORE**

Odourless thinner

**DESCRIPTION**

Thinner formulated with special odourless isoparaffinic solvents which make it suitable for use with *Okapa*. It is also ideal for dilution of synthetic alkyd products.

**THECNICAL DATA**

Specific weight ISO 2811-1 780–840 g/l

**SHELF LIFE**

1 year minimum, stored in its unopened original can at temperatures between +5°C and +30°C.

**TYPICAL USE**

To be mixed as a thinner to synthetic alkyd products used as primers and/or finishing products. The dose varies depending on the application system and is indicated in the data sheet of the relative products.

**SPECIFICATION ITEM**

Thinner formulated with special odourless isoparaffinic solvents which make it suitable for use with *Okapa*. It is also ideal for dilution of synthetic alkyd products.

**INSTRUCTIONS**

To carry out the work in a proper way, it is needed to strictly follow the instructions for the preparation of the surfaces contained in the CAP Arreghini Books. This technical information is intended as a rough guide. However, because of the enormous variety of media and application conditions, it is essential to check the suitability of the product and test the effectiveness on a sample. The specification data and technical information have been calculated at +23°C with relative ambient humidity of 65%. In different conditions the data and the time intervals between the two phases of the above reported coating system can vary.
