

DESCRIPTION	Compound consisting of slow drying hydrocarbon solvents, ideal for all synthetic products.		
PRODUCT PROPERTY	Specific weight	750–850 g/l	Method D100
SHELF LIFE	1 year minimum, stored in its unopened original can at temperatures between +5°C and +30°C.		
TYPICAL USE	To be mixed as a thinner to synthetic alkyd products used as primers and/or finishing products. The dose varies depending on the application system and is indicated in the data sheet of the relative products.		
SPECIFICATION ITEM	Compound consisting of slow drying hydrocarbon solvents, ideal for all synthetic products.		
INSTRUCTIONS	To carry out the work in a proper way, it is needed to strictly follow the instructions for the preparation of the surfaces contained in the CAP Arreghini Books. This technical information is intended as a rough guide. However, because of the enormous variety of media and application conditions, it is essential to check the suitability of the product and test the effectiveness on a sample. The specification data and technical information have been calculated at +23°C with relative ambient humidity of 65%. In different conditions the data and the time intervals between the two phases of the above reported coating system can vary.
