

## B25

Anti-mould anti-algae additive for exteriors

### DESCRIPTION

Water-based anti-algae and fungicidal paste chosen for its high efficacy against various moss and mould species. After application, this product does not leave unpleasant residual odours.

### SPECIFICATION DATA

<b>Specific weight</b>	1200-1300 g/l	<b>Method</b>
		interior PF3

### SHELF LIFE

1 year minimum, stored in its unopened original can at temperatures between +5°C and +30°C.

### TYPICAL USE

Shake the tin well before use and mix 350 ml of this product with 14 litres of paint.

### SPECIFICATION ITEM

Water-based algae and fungicidal paste chosen for its high efficacy against various moss and mould species.

### INSTRUCTIONS

To carry out the work in a proper way, it is needed to strictly follow the instructions for the preparation of the surfaces contained in the CAP Arreghini Books. This technical information is intended as a rough guide. However, because of the enormous variety of media and application conditions, it is essential to check the suitability of the product and test the effectiveness on a sample. The specification data and technical information have been calculated at +23°C with relative ambient humidity of 65%. In different conditions the data and the time intervals between the two phases of the above reported coating system can vary.
