+5°C +30°C

SPECIFICATION ITEM

Interior paste filler for application on wood or building materials.
Wipe off dry. It is ideal on interior surfaces for filling holes, cracks and defects or for skim coats both on wood and on various types of plaster finishes, plasterboard and concrete.

INSTRUCTIONS

To carry out the work in a proper way, it is needed to strictly follow the instructions for the preparation of the surfaces contained in the CAP Arreghini Books. This technical information is intended as a rough guide. However, because of the enormous variety of media and application conditions, it is essential to check the suitability of the product and test the effectiveness on a sample. The specification data and technical information have been calculated at +23°C with relative ambient humidity of 65%. In different conditions the data and the time intervals between the two phases of the above reported coating system can vary.
